

Charlie Muniz Joins San Francisco Giants Organization

Aug 31, 2026

Charlie Muniz is heading to affiliated baseball!

The San Francisco Giants have officially purchased the contract of Mustangs catcher Charlie Muniz, who will report to the organization's High-A affiliate, the Eugene Emeralds.

Muniz becomes the 16th Mustang to sign an affiliated contract since the Pioneer League became an independent partner league in 2021.

The catcher joined the Mustangs in a trade with the Lexington Legends of the Atlantic League on July 31, 2025, and quickly established himself as one of the most dangerous power hitters in the Pioneer League.

In 2026, Muniz was a key contributor for the Mustangs on both sides of the ball. At the plate, he set the modern-day Billings franchise single-season home run record with 27 long balls while driving in 106 runs.

Behind the plate, Muniz played an important role in handling the Mustangs pitching staff while also throwing out 19 potential base stealers.

Muniz also provided plenty of memorable moments during his time in Billings, including a pair of walk-off hits this season.

Now, he will take the next step in his professional career, joining another playoff-bound team in the Emeralds and moving into affiliated baseball with the Giants organization.

Charlie will certainly be missed around Dehler Park, but everyone with the Mustangs is excited to see where this next opportunity takes him.

Congratulations, Charlie, and best of luck with the Giants!
